

# **Whitesand First Nation Community Meeting**

## **Community Sustainability Initiative**

### **Bio-Energy Project Update**

**Saturday October 14, 2017**

**11:00am – 1:30 pm**

**Whitesand Multi-plex**

Whitesand First Nation is in the final project development steps including site preparation of our Bio-Energy Centre which will include a Combined Heat and Power Plant, 90,000 metric ton wood pellet plant and a Wood Merchandising Yard.

These facilities will provide substantial employment opportunities within construction, forestry and the operation of the bio-mass facilities for Whitesand, Armstrong and the region.

Please join us for a project update on the many achievements and advances in the project.
