New Pandemic Lead

Chief and Council would like to thank Angela Nodin for her hard work and dedication in working through the issues that confronted the community during the early stages of the COVID-19 pandemic. The initial steps of providing educational material, cleaning and food supplies has assisted in containing the spread of COVID-19 in the community. As Angela is the Health Coordinator, she will now be focusing her time on responsibilities related to that role and planning for the upcoming year. Brenda Kwandibens will be assuming the role of Pandemic Lead and can be reached at 807-355-8581.
