Re: Storm & WW ICIP – Residential Survey

Notice to All Whitesand First Nation Community Members

Phase 1 of the Storm & WW ICIP project has been completed. This work was completed to help resolve the issues of basements flooding and eliminate standing water in the ditch lines throughout the Community.

As part of **Phase 2**, SBA was in the Community in October to ask residents if they are still experiencing flooded basements or not. We were not able to speak with all residents as not everyone was home during our site visit.

We would like to present a form for residents to fill out and identify any outstanding issues to be addressed in Phase 2. **Please find the form on the next page.**

We kindly ask to take the time to fill out this form and return it to the Whitesand Band Office, or send electronically to Colleen Lavoie at colleen.lavoie@whitesandfirstnation.com.

Your help is greatly appreciated.

Yours truly,

Connor Messner, P. Eng.
Civil Engineer

S. Burnett & Associates Limited

Residential Survey Form

We kindly ask residents to fill out and return this form to the Whitesand Band Office, or send electronically to Colleen Lavoie at colleen.lavoie@whitesandfirstnation.com before **March 6th, 2026**. Please note, if your house is not experiencing any of these issues, you do not need to fill out and return this form.

House Address: _____

Name: _____

- 1. YES NO UNKNOWN - Is your basement experiencing flooding?
- 2. YES NO UNKNOWN - Does your basement have any cracks in the foundation?
- 3. YES NO UNKNOWN - Are you experiencing any septic issues?
- 4. YES NO UNKNOWN - Do you notice any odour coming from the drains?
- 5. YES NO UNKNOWN - Do you notice any odour coming from your septic field?
- 6. YES NO UNKNOWN - Do you notice your septic field leaking overground?
- 7. YES NO UNKNOWN - Does water pool around the sides of your house?
- 8. YES NO UNKNOWN - Does the ground slope towards your house?
- 9. YES NO UNKNOWN - Does the ground feel spongy/saturated around your septic field?

Other Notes / Comments / Issues (please feel free to provide further details on any of the above questions):
